## Reshet network launch

The launch of Jewish informal network 'Reshet' saw some 200 young people attend an event at KidZania in central London. The new initiative offers training and development, Israel engagement and youth work advocacy, described as 'transformative in the lives of young people', by Lord Jonathan Kestenbaum. Reshet was launched by UJIA and the Jewish Leadership Council to offer opportunities for Jewish educators in communal institutions including schools and shuls.
