

# Yom Ha'atzmaut Bingo Quiz

Play this game and have fun while learning about Israel!

Hand each student a blank bingo card and display the list of answers. The Bingo card has 9 blank spaces. All players choose from the list of answers supplied the ones they want to complete their cards and should be given time to fill these in.

The Teacher/Leader should read out the questions randomly. The students can check to see if one of the choices on their Bingo Card might be the answer. They can then try and answer the question for the class. If they have the right answer, everyone with that word marks it off like a regular bingo game. The first person to get all 9 wins!
