

Welcome Letter

Dear Teachers,

Welcome to Box 3 of HaMoadon, the Israel Club for Primary Schools brought to you by UJIA. This box is arriving to you at the end of Term 1 for you to use at the start of Term 2, we hope this will help with your planning.

In January there are two special commemorative days in Israel. National Israeli Doctors Day and National Hebrew Language Day. We have used both special days to give us our theme for this box. We have included a history focus on Henrietta Szold and her important work on establishing the Israeli health system and Eliezer Ben Yehuda who was the founder of Modern Ivrit.

As usual you will find a mixture of games, craft activities, learning sheets, vocabulary, and reward stickers. Have you noticed that on each reward sticker there is a different word in Ivrit to praise the children? There can never be too many ways to tell a child they are special and amazing.

I have had the pleasure of visiting some of the HaMoadon schools and seeing how the project is running, which is always very rewarding. I hope to visit many more in the coming term, these meetings really help us to understand how this work is running in schools and allows us to improve how we can work with you.

The next box will arrive just before February half-term and will focus on Immigration to Israel.

Finally, can I take this opportunity to wish everyone a **שְׁמֵחַ וְנִצְחָה** and well deserved end of term break.

L'shalom
Melanie
